Island Top	39" x 74" x 1 ½"
------------	------------------

Bamboo wood is a product of exceptional quality and is formaldehyde-free. The bamboo forests are managed according to the highest social and environmental industry standards.

The light-coloured bamboo panels are made of multiple vertical layers of pressed wood. This manufacturing method, in addition to offering a unique aesthetic look on its surface and edges, provides high stability to this product of choice for furniture making of all kinds.
